CC Docket Nos. 96-45 97-21

This is in reference to the **FRN 984390**. This was submitted on a BEAR form on time, during the correct filing period. I mistakenly picked up the wrong amount from the Funding Commitment Letter and transferred that amount to the BEAR form.

After I submitted the form, the USAC representative found the error. I asked the representative if I could just resubmit the BEAR form since it was just a matter of recording the wrong amount and she said no.

After going over this several times with that representative, she advised me to send her a note removing that particular FRN in question and to refile the BEAR form. This is what I had asked originally. Then she advised me that since it was now 2 months later, I was beyond the filing deadline and that I would have to contact you for an extension.

I did that and I am now being denied an extension. I did not miss the filing deadline to begin with, all I did was record the wrong pre-discount amount onto the BEAR form and this has caused all of these problems.

Please, I implore you to reconsider this denial and allow us to obtain the funds from **FRN 984390 in the amount of \$7722.00**

As you know, all school districts are in great need of financial assistance. We are the fastest growing school district in Illinois, to the tune of 2600 NEW students annually. Like everyone else we need the funds.

Please do not penalize this district and these students because of a recording error on my part. I hope you will reconsider this request and grant us the extension in order to obtain these funds.

Thank you for your consideration.
